Roller Blinds

[www.fashionline.com.au](http://www.fashionline.com.au)

- contemporary and stylish
- easy operation ■ versatile

privacy and sun protection

huge range of fabrics

lightweight, easy operation, motorised option available

Pull them down for privacy, roll them up and they virtually disappear from your window leaving you to enjoy the view outside. The simplicity and easy operation of roller blinds has made this style a traditional favourite in Australian homes, but advances in fabric performance and technology has added new versatility. Now one of the most functional ways of managing heat and light, your roller blinds can provide total sun blockout or allow filtered light into your rooms. It is not only the functionality that makes roller blinds so appealing; it's the clean, uncluttered look at your windows that makes its own style statement. You want your home to look open and inviting and roller blinds keep it that way. Choose a neutral colour to provide calm serenity or use your windows as a giant canvas and complete your décor using the Fashionline palette of colours and textures.

**Energy efficiency.**

You may not have thought about how roller blinds can help your energy

consumption but they will. Over 30% of unwanted heat loss in winter and heat gain in summer takes place through windows.

Reduce that heat transfer and you can reduce your power bills. Fashionline helps you create a safe and comfortable environment where glare and temperature can be controlled.

**Privacy and wearability.**

Different rooms have different privacy issues, which is especially true in bathrooms, bedrooms and children's rooms. Roller blinds have the versatility to perform anywhere. Bathroom blinds can be treated to resist moulds and children's blinds can be protected to resist the dirt and stains that little fingers often leave behind. Of course you can save finger marks and stains by having your roller blinds motorised and operated using remote control, switch or timer controls. You can relax knowing you haven't just been guided by fashion but by practicality. Your beautiful window solution will be a lasting one.
